NOT A SICK DAY For Over Thirty Years!

RESULT OF USING

AYER'S PILLS

"Ayer's Cathartic Pills for over thirty years have kept me in good health, never having had a sick day in all that time. Before I was twenty I suffered almost continually as a result of constipation—from dyspepsia, headache, neuralgia, and other nervous and eruptive diseases. When I became convinced

that nine-tenths of my troubles were caused by constipation, I began the use of Ayer's Pills, with the most satisfactory results, never having had a single attack that did not readily yield to this remedy. My wife, who had been an invalid for years, also began to use Ayer's Pills, and her health was quickly restored. With my children I had noticed that nearly all their ailments were preceded by constipation, and I soon had the pleasure of knowing that with children as with parents, Ayer's Pills, if taken in season, avert all danger of sickness."

The Journal says that silver has as great purchasing power now as it had in 1873. This is a false statement, and the Journal editor knows it. The average of wages is higher now than in 1873, and silver is not worth half as much, hence silver will not purchase half as much labor, which constitutes on an average nine tenths of the cost of all manufactured articles, as it would in 1873. And while the price of a great many commodities, for various and different reasons, have fallen as much as silver, a great many others have not fallen at all, hence silver will not purchase half as much of them as it would in 1873.

The Journal pretends to be exercised because the Director is not reliable in its statements. This is very amusing coming from the source it does. When one considers that the Journal editor has occupied every side on every public question, and made statements accordingly, it is absurd. He has been a democrat, republican, populist, labor leader, greenbacker, gold bug and silver mono-metalist in turn. He has advocated high tariff and low tariff, sound money and fiat money, depreciated currency and silver, and every other wild cat money scheme, no matter how dishonest. He has pretended to sympathize with labor, and in turn stood in the halls of the legislature as the special representative of railroad corporations, hobnobbing with railroad magnates, and conferring with them with reference to who were the leaders in the strike. In fact he has been anything and everything to carry favor without regard for principle or truth, and then he has the nerve to say we are not reliable in our statements. But there has been nothing inconsistent in our statements notwithstanding the Journal's efforts to distort them. We said our silver circulation was redeemable in gold, and so it is, treasury notes direct, and silver dollars and certificates indirectly, because the law gives them a gold value. We said silver dollars were primary money, and so they are, although they do not contain one dollar in metal because of the decline in silver, but are given that value because they are practically interchangeable with gold. And so it is with all other statements we have made. They are practically correct and right, notwithstanding the efforts of the Journal to seize on some technicality to distort them, and we must say it seems very cheeky in a man to find fault with them, who never held the same opinion on any subject a year continuously in his life, but tops about like a feather in a wind, when he thinks his private interests will be advanced by the change.

The New Rule.

State Auditor R. C. Dunn has

adopted a new policy in dealing with the requests for abatement of taxes

which come in every year from every county in the state. It has always

been the policy of the state auditor to honor these requests when gotten

up in the proper form, with the signatures of the county commissioners and

county auditor, but the new administration makes it a point to make

personal inquiry as to the justice or otherwise of the claim before passing

upon it. As a result, scores of the requests are being refused, and the

interested persons are doing considerable fault-finding. — Minneapolis

Journal.

Had a Healthy Effect.

Speaking of the recent seizures of

fish by the wardens in St. Paul and

Minneapolis, the Evening Tribune

says:

If those who make a business of

catching and marketing fish during the spring season continue to observe

the letter of the law touching the manner in which they shall be taken

as rigidly as they have for a week or 10 days, or since the Northern Pacific

road instructed its agents to receive no consignments unless they were

accompanied by affidavits that the fish had been legally caught, the fish

and game wardens will have nothing to do except meet incoming trains from

the north and scrutinize the different shipments for the required certificates.

In point of fact this is about all the instructions went into effect. At the

Union station, which for a season was so prolific of shipments subject to

seizure, he has only confiscated one small lot in all that time. There has

been but little falling off in the number or pounds received at the different

express offices daily, and the only reason the commission houses, which

formerly received as high as 300 or 400 pounds some days, do not get any

more is because the fish shipped in is straight, and not subject to confiscation.

The steps taken by the Northern Pacific road to prevent shipping

illegal catches over its line has had a salutary effect on market fishermen,

and Warden Johnson believes that there will be little more trouble from

those who were persistent at the beginning of the season in their efforts

to evade the law. While the other roads running into Minneapolis from

the region of the lakes to the north have not adopted such a measure as

the Northern Pacific, still consignors along all of the lines seem to have

been made aware of its existence and effect, and a present very few ship-

ments arrive at the Union station accompanied by some form of certificate,

stating that the contents of the boxes or barrels have been taken according

to law.

The Brainerd Team Adds Another Scalp

To Their List of Late Victories by

Winning Yesterday's Game.

Howe Pitches a Wonderful Game, Only

Four Hits Made Off His Delivery.

and Strikes Out 14 Men.

An interesting game of base ball

was witnessed at the new Athletic

Park by about 500 people on Memorial

Day between the Brainerd nine and

the St. Anthony Browns, of Minne-

apolis, which resulted in an easy

victory for the home team by a score

of 15 to 4. The game up to the fourth

inning was all that could be expected,

the score standing 2 to 4 in favor of

the home team, when Capt. Burquin's

hard hitters let themselves loose and

pounded Scallion all over the lot,

making five runs, which took all the

finger out of the Browns and made

them an easy mark for Howe's snake

curves. The main features of the

game was the batting of the home

team and Howe's pitching, he striking

out 14 men and only 4 safe hits being

made off his delivery, and one being

a scratch hit by Cady for two bases.

The ball could have been caught easily

if the fielder had been playing out in

his usual place, but as they very

seldom knocked the ball outside the

diamond, all the fielders were playing

well up, and the ball was knocked

over his head. Howe led at the bat

in making long drives, making a three

base hit in the first inning and a two

bagger in the fifth. He was closely

followed by Chas. McCarthy, Brainerd's

clever back stop, who made a pretty

hit for three bases. Page and Carroll

were both handy with the wagon

tongue, and pounded out hits just

when needed, each making a two base

hit. Capt. Burquin, who plays at

short, and one of the safest hitters of

the nine, was always on deck with a

hit when men were on bases. That

man they call Hill, who is very clever

with his fingers, takes everything that

comes near third base, and shows that

the training he underwent at the

gymnasium last spring, places him at

the head of all third basemen. Billy

McCarthy made three safe hits, but

his hits were long flies to deep center,

which, in most cases would have been

safe hits, but it so happened that the

Browns had a man there who knew

a thing or two about flies, and he ate

them up in great shape. Paine and

Theilmann fielded their positions with-

out an error, and did some good stick

work. Brainerd put up the best game

that has been seen in this city for

some time, only making two errors,

while the Browns are credited with

nine, and with such ball playing in

the future, they need have no fear

of losing the title of being the cham-

pion amateur base ball team of the

United States.

For the visiting team little can be

said, as they put up a poor game of

ball. The work of Swartz, the catch-

er, was very good, and clearly showed

that he was a ball player, and that

he was a player of first base was good.

Driscoll, who played center field,

made some of the best catches of fly

balls that has been seen here for some

time, and received rounds of applause

from the grand stand and benches.

Scallion, who pitched the game, did

fairly well, striking out five men, but

was rather wild, and did not seem to

care whether he pitched a winning

ball or not.

Two more games will be played

with the same team on Saturday and

in pitching. Staples pounded out 5 scores and tied the game. The Browns came in and made three scores, and Staples made four. Capt. Congdon then changed pitchers. Mitchell shut them out for the rest of the game, the score, after the dust of the battle had cleared away, being 12 to 10 in favor of the Browns. The feature of the game was a long drive for three bases by Johnson, and a running catch by Shelly Paine, and a brilliant stop by Murphy. The Browns are expecting to go to Aitkin Friday, and will bring home another scalp.

G. Winz.

Challenge the Browns.

The Brainerd Reserves hereby

challenge the Browns to play for fun,

mossgates, wind, glory, money, or

anything else that they have handy

The new state constitution to be submitted to the voters of Utah is an unusually conservative document in many respects. It limits the number of state officials as such as possible, and provides for a strong executive, dispensing with a lieutenant governor, and the legislature will consist of 55 members. One clause prohibits the state from contracting a debt of over \$100,000, and state, county or municipal credit is not to be permitted to lend its credit to any enterprise. Women are to have exactly the same political privileges as men. There can be but little doubt of the adoption of the constitution, and Utah will probably be a full-fledged state early in the winter.

GRESHAM NO MORE

THE SECRETARY OF STATE SINKS INTO HIS LONG SLEEP.

After an illness of four weeks, and after all danger has passed, the secretary of state, William D. Gresham, is now suffering from a severe attack of pleurisy, and is expected to die.

Washington, May 29.—Walter Q. Gresham, secretary of state, died at 1:30 this morning. He was 62 years of age, and had been ill for several weeks. He was a member of the cabinet for four years, and was one of the ablest statesmen of the country.

When Mr. Gresham was taken sick four weeks ago the physician diagnosed the case as a severe attack of pleurisy, and he was expected to die. He was a member of the cabinet for four years, and was one of the ablest statesmen of the country.

OVER FIFTY DROWNED.

The Pacific Mail Steamer Collina Is Wrecked.

San Francisco, May 30.—O. R. S. Scherwin, superintendent of the Pacific Mail company, has just received word that the Collina has been wrecked. Forty-four of those on board are believed to have been killed.

The Collina was a large steamer, and was carrying a large number of passengers. She was wrecked off the coast of California, and the survivors are being rescued.

The wreck of the Collina is a great loss to the company, and to the country. It is a reminder of the dangers of sea travel, and of the need for better ships and crews.

Russia sent nearly 12,000 exiles to Siberia last year, an item which in itself is enough to destroy any desire for the further spread of the czar's dominion.

The increase of wages in Carnegie's steel works is another evidence that the business improvement is likely to stick. The rates lost in 1903 and 1904 will probably be restored all over the country before 1906 ends.

The sap is still running in the Cuban grapevines in spite of the cold waves. Future harvests will be lucky if they can find one fact in a cord of the telegrams received from the revolutionists and from Havana.

Justice Field has been on the supreme bench for thirty-two years, and says he has no intention of resigning. Notwithstanding his advanced age he feels as strong as he did ten years ago, and claims that he can discharge his official duties as well.

The voluntary contributions to the Church of England last year reached a total of over \$250,000. Add the money given to colleges, hospitals and other public institutions of un-questioned merit, and it must be admitted that the world is growing more wisely liberal.

Canada is unwilling to annex Newfoundland and assume its debt of \$15,000,000. The British government will probably have to fall back on the charity of England. Such things are liable to happen to slices of America owing allegiance to Europe.

The daughters of the late Dr. Swing have quarreled as to the place where his remains shall be permanently interred, and the matter has gone to the probate court. Such an exhibition of family pettiness is a poor tribute to pay to the memory of a man like David Swing.

The report comes from Florida that three negroes, suspected of assaulting a white girl, was taken into a swamp by a mob of white men and flayed and burned at the stake. The report is too horrible for belief. If true, Florida has much to boast of over the perpetrators of the outrages in Armenia.

Now that the secretary of war has detailed three members of the engineer corps to examine the plans for the great Chicago drainage canal, Chicago is hastening to assure the country that she has no intention of damaging Niagara Falls. Hitherto she has kept as quiet about the affair as a child at a pot of jam.

"Barking up the wrong tree," meaning that an individual is mistaken following the wrong impression, is believed to be an Americanism borrowed from the fact that many dogs will often bark at the root of a tree from which their game has escaped by passing from branch to branch.

It is a New Yorker man who has evolved the idea of a combination of kites to which the flag is hung. By this means the stars and stripes may literally flutter against the sky, and the result is said to be very effective.

The result is suspended from the kites, and the currents of upper air keep the flag in place for an indefinite length of time.

The young man at the head of the German government has been strongly reminded of late that his views on the subject of personal rights of German citizens and also on taxation do not weaken the force of the constitution. A heavy and increasing majority is arrayed against the emperor, whose self assertion and vanity of opinion do not mellow as he grows older.

Russia having combined with several other powers to keep Japan from regaining possession of any part of Manchuria or Korea will find the present troublesome when the czar tries to secure a better harbor for the terminus of his 5,000-mile railroad.

What Japan may not keep after fighting for it will surely be able to pass into Russia's hands either peacefully or forcibly.

A watch has been invented which measures distance by sound. The inventor, a French officer named Thonvenin, has called the instrument a phonometer. To operate it a little button is pressed at the instant of the flash and again at the sound. In the meantime a needle traverses a dial, registering time to the one-hundredth part of a second. The rest is a mere matter of calculation.

The royal commission appointed in England five years ago to inquire into the effect on human health of food derived from tuberculous animals has made a bulky report which presents very few definite conclusions. The commission, to operate it a little button is pressed at the instant of the flash and again at the sound. In the meantime a needle traverses a dial, registering time to the one-hundredth part of a second. The rest is a mere matter of calculation.

LOOK OUT FOR BREAKERS AHEAD!

When pimples, eruptions, blotches and like manifestations of impure blood appear. The blood wouldn't appear so pure and rosy as it is, if it weren't for the impurities in the right condition. The blood shows you what you need—a good blood purifier, that's what you get when you take Dr. Pierce's Golden Medical Discovery.

It carries back to it All Blood-Skin and Scalp Diseases, from a common Itch, or Eruption, to the worst Scabies, are cured by it. It invigorates the liver and makes a healthy action. It is the most stubborn of all the skin diseases, such as Eczema, Tetter, Erysipelas, and kindred ailments, and Scrofula, it is as unsuccumbed remedy.

Now that hypnotism is in the air, our conversation books will have to be remodeled, as thus:

Good morning. Have you hibernated well?

Yes, I have had a most successful hibernation this winter. Have you laid out your plans for the coming year?

Only a few days at Christmas, just to escape the bills.

Well, you take my advice, old man, and I've had a private catnaps on the "three years' system." It comes much cheaper in the end, and you save all your coal and gas, to say nothing of cold.

We've started a Nirvana club in our neighborhood on the tontine principle. The last person who wakes gets the pot. The first who comes to bed makes off with it.

It is capital, any way, when you are

Will, some day. By Jove, I must be off! I've got to attend an anaesthetic concert, absolutely painless.

Party on to-night. All the boxes will be put in glass cases and fed mechanically.

Good-by, then. Sleep well!—Punch.

New Species of Ape.

The zoological gardens at Berlin have just received from the Dutch East Indies an ape utterly unlike any thing of the kind ever seen before in Europe. It is of the orang-utan size

here and a remarkable hooked nose. The inhabitants of Sumatra are said to regard it with superstitious reverence, and to believe that these animals swell their larynxes to an enormous extent, uttering loud sounds which cannot be described in words.

The mill of the Brainerd Lumber Company has been running with a day crew since the first of the month and the night crew went to work Monday night of this week. The mill is practically new and like all new mills everything does not run smoothly at first. The best of everything in the way of equipment has been put into the mill and it is one of the best plants on the river. When settled at work the company will turn out about 400,000 feet every 24 hours. Their new planing mill is rapidly approaching completion. The machinery is on the way and will be put in place as soon as it arrives. There is already quite a stock of new lumber in pile in the yard and with the stock that was purchased from the Gull River Lumber company the company will soon be prepared to enter the wholesale field.—Lumberman.

Are Getting Familiar.
A peculiar incident occurred in this city on Sunday last which will probably not be repeated for some time to come. About 12:30 a wild deer which had crossed the river and came up the bank near the Swartz residence, appeared on Front street near the hose house, and becoming frightened at the signs of civilization and the barking of dogs, started on a mad run down the street. When in front of Shipp Bros. hardware store the animal wheeled suddenly and gave two jumps, the second one landing his deerishness on the inside of the store, having broken the large plate glass window in the flight. Once inside the deer overturned things generally and broke the window in the rear door in endeavoring to get out. The excitement soon called a large crowd, and the animal was captured and taken to the yard in the rear of the store. When the deer jumped through the plate glass window it knocked its front teeth out and was otherwise severely injured about the head, being cut in several places. Dr. W. Courtney, of the N. P. Sanitarium being present sewed up the wounds, and took the animal to the hospital, but it died the same night. The glass which was broken will cost \$75 to replace, and it was uninsured.
In announcing the census enumerators last week an error was made, the second district, composed of the third and fourth wards, being assigned to A. L. Nutting which should have been A. G. Trommald. Mr. Nutting's district is the second ward.
CONGDON removes all smoke, dust, etc., and makes old paper bright as new.

Memorial Day.
Memorial Day was fittingly observed in this city notwithstanding the rain which fell in torrents just at the time advertised for the parade to take place in the afternoon.
Although the clouds presented a threatening aspect during the forenoon hours no rain fell and the exercises at the cemetery were not interfered with. At the appointed time the Post and Relief Corps accompanied by the firing squad proceeded to the cemetery where the graves of the fallen heroes were strewn with flowers and appropriate ceremonies were performed. Accompanying the procession was a beautiful float drawn by four horses and occupied by twenty girls dressed in white who had charge of the flowers for the occasion.
In the afternoon some delay was occasioned by the rain but fortunately it partially cleared up to some extent and the column was formed, and the march proceeded over the route published in this paper last week. J. C. Congdon was in command and the city band furnished music for the occasion. Maj. J. L. Dobbin, the orator of the day, arrived on the 2:15 train in time to participate in the parade. Arriving at the park Maj. Dobbin made a very eloquent address which was listened to with much interest by his hearers. Rev. D. D. McKay acted as chaplain and Hon. W. A. Fleming did the honors as master of ceremonies.
Some very fine music was rendered by the school children under direction of Miss Kate Canan, and also by the quartette, Miss Minnie Merritt presiding at the organ.
Considering the weather the day was in every way a grand success and one long to be remembered by those who participated.

Two Days Tournament.
The Brainerd Gun Club held a meeting on Monday evening at the Chequamegon Club rooms and adopted by-laws and constitution for their government. At this meeting it was decided to give two days shooting tournament, the date being fixed for June 27 and 28. The club will offer inducements that will bring a large number of shooters from various parts of the state and northwest to this city on that date. The club has the best equipment of any organization of the kind in this section of the country, and the tournaments heretofore given have been successful in all respects.
Woman to Enumerate Cass County.
Secretary of State Berg was unable to secure a resident of Cass county to take the census there. Miss Mary M. Haskell, of this city, at present a stenographer in the census bureau, has consented to undertake the job and has been commissioned. The population of the county is widely scattered and the trip will have to be made on horseback. Much of it is an unbroken wilderness and there are many Indians in the county, some of whom will have to be enumerated. The undertaking is a formidable one, and very few ladies would be willing to attempt it.—Minneapolis Tribune.
Accident at Motley.
Joseph Davenport met with an accident at Motley on Tuesday afternoon that will probably prove fatal. Mr. Davenport was an employee at the saw mill of Curtis & Lawrence, and was engaged in his duties of oiling the machinery when he fell from a scaffold or step and sustained a fracture of the skull. No one saw the man fall, and when he was discovered he was unconscious and did not regain his senses up to the time he was brought to Brainerd and placed in the Lumberman's Hospital. Mr. Davenport is a man about 55 years old, and has a family living at Motley. He is a member of the G. A. R.
Since the above was in type the injured man has died. His funeral takes place at Motley to-day.

DIED.
John B. Dextler, aged 32 years, died at his home in East Brainerd of consumption on Saturday, May 25th, the funeral taking place on Monday from the German Methodist church, Rev. L. S. Staff officiating. Deceased leaves a wife and one child to mourn his death.
In Trouble Again.
The Staples World says that a man named Demoss, who lives in Cass county, about a mile from Motley, had a little unpleasant experience at the latter place last Thursday evening. For some time the citizens of that place have had trouble to find their cows, and even when they did the lacted fluid was not forthcoming when milking time arrived. It is alleged that the above named party was responsible for this unsatisfactory state of affairs, and last Thursday evening he was attacked and pretty severely handled by one of the citizens who had a grievance. He might have fared worse but for the fact that he ran into the N. P. depot at that place and sought the protection of Agent Campbell. This is the same man whose three boys are under arrest for attempting to wreck a N. P. train as noted in these columns.

MARRIED.
J. M. Hayes and Miss Elisabeth T. Clark were united in marriage at the residence of the bride's sister, Mrs. N. W. Wheatley, on Tuesday evening, May 28, Rev. L. S. Staff officiating. The wedding was a private affair, only members of the family being present. After the ceremony the newly wedded couple went to their home at the corner of Seventh and Ivy streets, which had been put in readiness for their reception in advance of the event. Both parties to the contract are well known to all our readers, the groom having lived here for many years, and is engaged in the grocery business at the corner of 6th and Laurel streets. The bride has been a successful teacher, in the public schools of this city for some years. The Dispatch with hosts of other friends extends congratulations to Mr. and Mrs. Hayes.
John Wier and Miss Maud Harvey were united in marriage at the residence of the bride's father on 8th street north, on Friday, May 24, Rev. D. D. McKay officiating. Mr. and Mrs. Wier left on the evening train for a wedding trip to Winnipeg, and are expected to return to-day. They will make this city their future home. Mr. Wier is a foreman at the N. P. shops.

Mrs. Newcomb's mission is educational along the whole line of temperance work. Good singing. All are invited.
The ever popular Jefferson Dramatic Company are hard at work rehearsing Minnie Madden's successful comedy drama "Caprice." It is one of the most beautiful dramas ever written, a story that appeals to one's better nature. They will present it at the opera house in the near future, and we predict a full house.
The company comprises some of our best citizens, and under the direction of Mr. Lyle Woodson, late comedian of the Wilson Theatre Company, is bound to be a success. The company as selected to produce the play is as follows: Messrs. Justin Smith, E. O. Webb, Charles Wilson, Ray Seelye, Joseph Laydon, Mrs. Chas. Hazen, Miss Bertie Robinson, Miss Zella Burgoyne, and Miss Lurline Cale. An announcement will be made in this paper when seats will be put on sale.
The mill of the Brainerd Lumber company has been running with a day crew since the first of the month and the night crew went to work Monday night of this week. The mill is practically new and like all new mills everything does not run smoothly at first. The best of everything in the way of equipment has been put into the mill and it is one of the best plants on the river. When settled at work the company will turn out about 400,000 feet every 24 hours. Their new planing mill is rapidly approaching completion. The machinery is on the way and will be put in place as soon as it arrives. There is already quite a stock of new lumber in pile in the yard and with the stock that was purchased from the Gull River Lumber company the company will soon be prepared to enter the wholesale field.—Lumberman.
Are Getting Familiar.
A peculiar incident occurred in this city on Sunday last which will probably not be repeated for some time to come. About 12:30 a wild deer which had crossed the river and came up the bank near the Swartz residence, appeared on Front street near the hose house, and becoming frightened at the signs of civilization and the barking of dogs, started on a mad run down the street. When in front of Shipp Bros. hardware store the animal wheeled suddenly and gave two jumps, the second one landing his hoofs on the inside of the store, having broken the large plate glass window in the flight. Once inside the deer overturned things generally and broke the window in the rear door in endeavoring to get out. The excitement soon called a large crowd, and the animal was captured and taken to the yard in the rear of the store. When the deer jumped through the plate glass window it knocked its front teeth out and was otherwise severely injured about the head, being cut in several places. Dr. W. Courtney, of the N. P. Sanitarium being present sewed up the wounds, and took the animal to the hospital, but it died the same night. The glass which was broken will cost \$75 to replace, and it was uninsured.

In announcing the census enumerators last week an error was made, the second district, composed of the third and fourth wards, being assigned to A. G. Trommald. Mr. Nutting's district is the second ward.
CONGDON removes all smoke, dust, etc., and makes old paper bright as new.

Memorial Day was fittingly observed in this city notwithstanding the rain which fell in torrents just at the time advertised for the parade to take place in the afternoon.
Although the clouds presented a threatening aspect during the forenoon hours no rain fell and the exercises at the cemetery were not interfered with. At the appointed time the Post and Relief Corps accompanied by the firing squad proceeded to the cemetery where the graves of the fallen heroes were strewn with flowers and appropriate ceremonies were performed. Accompanying the procession was a beautiful float drawn by four horses and occupied by twenty girls dressed in white who had charge of the flowers for the occasion.
In the afternoon some delay was occasioned by the rain but fortunately it partially cleared up to some extent and the column was formed, and the march proceeded over the route published in this paper last week. J. C. Congdon was in command and the city band furnished music for the occasion. Maj. J. L. Dobbin, the orator of the day, arrived on the 2:15 train in time to participate in the parade. Arriving at the park Maj. Dobbin made a very eloquent address which was listened to with much interest by his hearers. Rev. D. D. McKay acted as chaplain and Hon. W. A. Fleming did the honors as master of ceremonies.
Some very fine music was rendered by the school children under direction of Miss Kate Cannon, and also by the quartette, Miss Minnie Merritt presiding at the organ.
Considering the weather the day was in every way a grand success and one long to be remembered by those who participated.

Two Days Tournament.
The Brainerd Gun Club held a meeting on Monday evening at the Chenquata Club rooms and adopted by-laws and constitution for their government. At this meeting it was decided to give two days shooting tournament, the date being fixed for June 27 and 28. The club will offer inducements that will bring a large number of shooters from various parts of the state and northwest to this city on that date. The club has the best equipment of any organization of the kind in this section of the country, and the tournaments heretofore given have been successful in all respects.
Women to Enumerate Cass County.
Secretary of State Berg was unable to secure a resident of Cass county to take the census there. Miss Mary M. Haskell, of this city, at present a stenographer in the census bureau, has consented to undertake the job and has been commissioned. The population of the county is widely scattered and the trip will have to be made on horseback. Much of it is an unbroken wilderness and there are many Indians in the county, some of whom will have to be enumerated. The undertaking is a formidable one, and very few ladies would be willing to attempt it.—Minneapolis Tribune.
We wonder how the people of Cass county will like the action taken by Secretary Berg. The statement that no one could be gotten in the county to take the census is entirely erroneous as we know that competent men made application for the positions. If the people of Cass county have been turned down in this matter to make room for a Minneapolis party they should register a good sized kick.

Brainerd Beaten 113 to 68.
Today's Pioneer Press says: The Minnesota cricket club beat Brainerd yesterday by 45 runs. The game was scheduled to start at 10:30, but owing to the downpour of rain it was impossible to start until 12, and then on a wicket.
The Brainerd captain won the toss, but decided to send in the Minnesota. Waters and H. L. Saulez starting the batting, to the bowling of Richardson and Davidson.
Waters succumbed after batting very steadily for 4, and Saulez came in, but was beaten by Davidson after making 10 in very pretty style. Jaffray was next, and soon made things lively, hitting up 21, in very short order. Sisson and Miller followed, but were soon out. G. C. Saulez then came on, and the two brothers batted in capital style, until Harry was finally caught by Richardson after Davidson's bowling. Harry had made 35 by good, patient cricket, never giving a chance until he had made 35. The rest of the team fell easy victims to the bowling. G. C. Saulez finally carrying out his bat for a well played 16.
The Brainerd men started the innings with Perrier and Davidson. Perrier being caught by Napier off Jaffray's first ball. This looked a little bad for Brainerd, but Richardson coming in, he and Davidson made things look brighter, until Davidson was clean bowled by Saulez, after making 16. Rain put a stop to the game for fully an hour at this stage. Continuing, Richardson scored very rapidly, hitting four 4's in quick succession, but not getting much support from the rest of his team, the innings finally closing for 68. Richardson carrying out his bat for a brilliantly played 38, being the top score of the game. Davidson carried off the bowling honors for the Brainerd team, taking 6 wickets for 37 runs. For the Minnesota Saulez took 4 wickets for 16 runs.

comedy drama "Caprice." It is one
of the most beautiful dramas ever
written, a story that appeals to one's
better nature. They will present it
at the opera house in the near future,
and we predict a full house. The
company comprises some of our best
citizens, and under the direction of
Mr. Lefe Woodson, late comedian of
the Wilson Theatre Company, is
bound to be a success. The company
as selected to produce the play is as
follows: Messrs. Justin Smith, E. O.
Webb, Charles Wilson, Ray Seelye,
Joseph Lyndon, Mrs. Chas. Hazen,
Miss Bertie Robinson, Miss Zella
Burgoyne, and Miss Lurline Cale.
An announcement will be made in

The mill of the Brainerd Lumber
company has been running with a
day crew since the first of the month
and the night crew went to work
Monday night of this week. The
mill is practically new and like all
new mills everything does not run
smoothly at first. The best of every-
thing in the way of equipment has
been put into the mill and it is one of
the best plants on the river. When
settled at work the company will
turn out about 400,000 feet every
24 hours. Their new planing mill is
rapidly approaching completion. The
machinery is on the way and will be
put in place as soon as it arrives.
There is already quite a stock of new
lumber in pile in the yard and with
the stock that was purchased from
the Gull River Lumber company the
company will soon be prepared to en-
ter the wholesale field.—Lumberman.

Are Getting Familiar.
A peculiar incident occurred in this
city on Sunday last which will prob-
ably not be repeated for some time to
come. About 12:30 a wild deer which
had crossed the river and came up
the bank near the Swartz residence,
appeared on Front street near the
hose house, and becoming frightened
at the signs of civilization and the
barking of dogs, started on a mad run
down the street. When in front of
Slipp Bros. hardware store the ani-
mal wheeled suddenly and gave two
jumps, the second one landing his
deerish on the inside of the store,
having broken the large plate glass
window in the flight. Once inside
the deer overturned things generally
and broke the window in the rear
door in endeavoring to get out. The
excitement soon called a large crowd,
and the animal was captured and
taken to the yard in the rear of the
store. When the deer jumped
through the plate glass window it
knocked its front teeth out and was
otherwise severely injured about the
head, being cut in several places. Dr.
W. Courtney, of the N. P. Sanitarium
being present saved up the wounds,
and took the animal to the hospital,
but it died the same night. The
glass which was broken will cost \$75
to replace, and it was uninsured.
In announcing the census enumer-
ators last week an error was made,
the second district, composed of the third
and fourth wards, being assigned to
A. L. Nutting which should have been
A. G. Trommald. Mr. Nutting's dis-
trict is the second ward.

Memorial Day.
Memorial Day was fittingly ob-
served in this city notwithstanding
the rain which fell in torrents just at
the time advertised for the parade to
take place in the afternoon.
Although the clouds presented a
threatening aspect during the fore-
noon hours no rain fell and the
exercises at the cemetery were not
interfered with. At the appointed
time the Post and Relief Corps ac-
companied by the firing squad pro-
ceeded to the cemetery where the
graves of the fallen heroes were
strewn with flowers and appropriate
ceremonies were performed. Accom-
panying the procession was a beauti-
ful float drawn by four horses and
occupied by twenty girls dressed in
white who had charge of the flowers
for the occasion.
In the afternoon some delay was
occasioned by the rain but fortunately
it partially cleared up to some extent
and the column was formed, and the
march proceeded over the route pub-
lished in this paper last week. J. C.
Congdon was in command and the
city band furnished music for the oc-
casion. Maj. J. L. Dobbin, the orator
of the day, arrived on the 2:15 train
in time to participate in the parade.
Arriving at the park Maj. Dobbin
made a very eloquent address which
was listened to with much interest by
his hearers. Rev. D. D. McKay acted
as chaplain and Hon. W. A. Fleming
did the honors as master of cere-
monies.
Some very fine music was rendered
by the school children under direction
of Miss Kate Canan, and also by the
quartette, Miss Minnie Merritt pre-
siding at the organ.
Considering the weather the day
was in every way a grand success and
one long to be remembered by those
who participated.

Two Days Tournament.
The Brainerd Gun Club held a
meeting on Monday evening at the
Chequagatana Club rooms and adopted
by-laws and constitution for their
government. At this meeting it was
decided to give a two days shooting
tournament, the date being fixed for
June 27 and 28. The club will offer
inducements that will bring a large
number of shooters from various parts
of the state and northwest to this city
on that date. The club has the best
equipment of any organization of the
kind in this section of the country,
and the tournaments heretofore given
have been successful in all respects.

Woman to Enumerate Cass County.
Secretary of State Berg was unable
to secure a resident of Cass county to
take the census there. Miss Mary M.
Haskell, of this city, at present a
stenographer in the census bureau,
has consented to undertake the job
and has been commissioned. The
population of the county is widely
scattered and the trip will have to be
made on horseback. Much of it is in
an unbroken wilderness and there are
many Indians in the country, some of
whom will have to be enumerated.
The undertaking is a formidable one,
and very few ladies would be willing
to attempt it.—Minneapolis Tribune.
We wonder how the people of Cass
county will like the action taken by
Secretary Berg. The statement that
no one could be gotten in the county
to take the census is entirely erroneous
as we know that competent men made
application for the positions. If the
people of Cass county have been
turned down in this matter to make
room for a Minneapolis party they
should register a good sized kick.

Accident at Motley.
Joseph Davenport met with an ac-
cident at Motley on Tuesday after-
noon that will probably prove fatal.
Mr. Davenport was an employe at the
saw mill of Curtis & Lawrence, and
was engaged in his duties of oiling
the machinery when he fell from a
scaffold or step and sustained a frac-
ture of the skull. No one saw the
man fall, and when he was discovered
he was unconscious and did not regain
his senses up to the time he was
brought to Brainerd and placed in the
Lumberman's Hospital. Mr. Daven-
port is a man about 55 years old, and
has a family living at Motley. He is
a member of the G. A. R.
Since the above was in type the in-
jured man has died. His funeral
takes place at Motley to-day.

DIED.
John B. Dextler, aged 32 years, died
at his home in East Brainerd of con-
sumption on Saturday, May 25th, the
funeral taking place on Monday from
the German Methodist church, Rev.
L. S. Stapf officiating. Deceased
leaves a wife and one child to mourn
his death.
In Trouble Again.
The Staples World says that a man
named Demoss, who lives in Cass
county, about a mile from Motley,
had a little unpleasant experience at
the latter place last Thursday eve-
ning. For some time the citizens of
that place have had trouble to find
their cows, and even when they did
the lactical fluid was not forthcoming
when milking time arrived. It is
alleged that the above named party
was responsible for this unsatisfactory
state of affairs, and last Thursday eve-
ning he was attacked and pretty
severely handled by one of the citi-
zens who had a grievance. He might
have fared worse but for the fact that
he ran into the N. P. depot at that
place and sought the protection of
Agent Campbell. This is the same
man whose three boys are under arrest
for attempting to wreck a N. P. train
as noted in these columns.

MARRIED.
J. M. Hayes and Miss Elisabeth T.
Clark were united in marriage at the
residence of the bride's sister, Mrs. N.
W. Wheatley, on Tuesday evening,
May 28, Rev. L. S. Stapf officiating.
The wedding was a private affair, on-
ly members of the family being pres-
ent. After the ceremony the newly
wedded couple went to their home at
the corner of Seventh and Ivy streets,
which had been put in readiness for
their reception in advance of the
event. Both parties to the contract
are well known to all our readers, the
groom having lived here for many
years, and is engaged in the grocery
business at the corner of 6th and
Laurel streets. The bride has been
a successful teacher, in the public
schools of this city for some years.
The DISPATCH with hosts of other
friends extends congratulations to Mr.
and Mrs. Hayes.
John Wier and Miss Maud Harvey
were united in marriage at the resi-
dence of the bride's father on 8th
street north, on Friday, May 24, Rev.
D. D. McKay officiating. Mr. and
Mrs. Wier left on the evening train
for a wedding trip to Winnipeg, and
are expected to return to-day. They
will make this city their future home.
Mr. Wier is a foreman at the N. P.
shops.
Brainerd Beaten 113 to 68.
Today's Pioneer Press says: The
Minnesota cricket club beat Brainerd
yesterday by 45 runs. The game was
scheduled to start at 10:30, but owing
to the downpour of rain it was im-
possible to start until 12, and then on
a wicket.
The Brainerd captain won the toss,
but decided to send in the Minnesotas.
Waters and H. L. Saulez starting the
batting, to the bowling of Richardson
and Davidson.
Waters succumbed after batting
very steadily for 4, and Sinfield came
in, but was beaten by Davidson after
making 10 in very pretty style. Jaf-
fray was next, and soon made things
lively, hitting up 21, in very short or-
der. Sisson and Miller followed, but
were soon out. G. C. Saulez then
came on, and the two brothers battled
in capital style, until Harry was finely
caught by Richardson off Davidson's
bowling. Harry had made 35 by
good, patient cricket, never giving a
chance until he had made 30. The
rest of the team fell easy victims to
the bowling, G. C. Saulez finally car-
rying out his bat for a well played 16.
The Brainerd men started the in-
nings with Perrier and Davidson,
Perrier being caught by Napier off
Jaffray's first ball. This looked a lit-
tle bad for Brainerd, but Richardson
coming in, he and Davidson made
things look brighter, until Davidson
was clean bowled by Sinfield, after
making 16. Rain put a stop to the
game for fully an hour at this stage.
Continuing, Richardson scored very
rapidly, hitting four 4's in quick suc-
cession, but not getting much support
from the rest of his team, the innings
finally closing for 68. Richardson
carrying out his bat for a brilliantly
played 38, being the top score of the
game. Davidson carried off the
bowling honors for the Brainerd team,
taking 6 wickets for 37 runs. For the
Minnesotas Saulez took 4 wickets for
16 runs.

News From Garrison.
Farmers are jubilant after the fine
rains.
The crop prospects are the best that
they have ever been at this season of
the year.
Mrs. C. T. McDonald, of Annandale,

looking for a place to locate, and was
favorably impressed with Garrison
and vicinity.
T. G. Dykeman starts tomorrow on
the road work laid out by the county
commissions on the south Mille Lac
road, a sum of money having been ap-
propriated for the same.
G. Perkins, of Cocato, was a town
visitor last week.
Loren Warren, the young man who
was accidentally shot near Grand
